COMPLETE OLD CAR SCENE . . .

14th NATIONAL MICRO RALLY

THE Micro Car Club held its 14th annual rally at Weston Park in Shropshire on Sunday 11th September 1988. The usual location of Burford was changed this year to Weston Park to allow more members

from the North and Midlands to attend with their cars. It is fascinating to walk amongst these unusual vehicles and look at the various designs and the thinking behind them. It is also amazing to see

so many different makes. Many think that this is a closed chapter in the history of motoring, but in years to come as petrol gets scarcer, who knows? We may yet see a new dawn for the "bubble car".
